

Disassembling Samsung Epic 4G Phone Case

Removing your rear panel of your phone case is easy and is the first step for most repairs.

Written By: Andrew Cunningham

INTRODUCTION

The rear panel on the Samsung Epic 4G is secured to the device by tabs and does not require any tools to remove. Any repair for internal components will require removing the rear panel.

Step 1 — Phone Case

- Power off the phone using the "Power Button" located on the left side of the phone.
- Remove back panel of phone by sliding your fingernail along the edge of the device. The rear plastic panel will snap off from the remainder of the device.
